

## Good News

K.Flav

Forecast does say more bad weather  
But they don't know nothin', don't know never  
Don't know nothin', don't know nothin', don't know never  
Mare run 'round like a bad thing comin', don't know nothin'  
Don't know nothin', rain keep comin', won't stop ever  
Take my pills but I still get sicker, still get sicker, won't stop ever  
Won't stop ever, still get sicker, don't feel better

I still got faith, I still got hope  
We still got time, we still got soul

I could use some good news  
Blue jeans, green lights, brighter views  
I could use some good news, good news  
To pull me through  
Couldn't you pull me through?  
I could use some good news, good news

Sold my soul but I won't stop runnin'  
Won't stop runnin', just won't let up  
Won't stop runnin', rain keep comin', just won't let up  
Won't come back so I drink that liquor  
Drink that liquor, don't feel better  
But still feel crazy, keep my head up

I still got faith, I still got hope  
We still got time, we still got soul

I could use some good news  
Blue jeans, green lights, brighter views  
I could use some good news, good news  
To pull me through  
Couldn't you pull me through?  
I could use some good news, good news

Sitting on the edge of the world  
Side of the road, how did we get here?  
So far pull up in the getaway car  
I'm ready to go, ready to start things over  
Trying not to live in the past  
I'm lookin' ahead, no one could be my own best friend  
I wanna get in the car, I'm ready to go  
I'm ready to start things over

I could use some good news  
I could use some good news  
To pull me through  
Couldn't you pull me through?  
I could use some good news, good news

Sitting on the edge of the world  
Side of the road, how did we get here so far?  
Pull up in the getaway car  
I'm ready to go, ready to start things over  
Trying not to live in the past  
I'm lookin' ahead, no one could be my own best friend  
I wanna get in the car, I'm ready to go

I'm ready to start things over  
Sitting on the edge of the world  
Side of the road, how did we get here so far?
