

It's Been So Long

K.Flavy

It's been so long
Since I went dancing, dancing
It's been so long
Since I felt this handsome, handsome

Skipping through the city, I've been all cooped up
Put me through the ringer little thing called love
Electricity, can you feel my buzz?
Already high enough, I don't need those drugs
But if you want a drink, put it on my check
Robyn on the jukebox, watch my step
Got nothing to prove, but I do my best
No, I don't give a fuck, parlez-vous my french?

Shaking off all of the negative emotions
Can't believe my heart was feeling kinda broken
Neon dreaming, spinning ceiling, what a moment
Come and dance, come and dance, come and dance

It's been so long (It's been so long)
Since I went dancing, dancing
It's been so long (It's been so long)
Since I felt this handsome, handsome

Surfing on the feeling like a ten foot wave
Flying on the floor, I'm a disco plane
Vibe is alive and it's in my veins
Yeah, I like how I feel and I feel insane
Free in my heart, I got love for the people I just met
I don't even know 'em
I used to lock up myself in the closet, but fuck it
I'm just gonna show 'em

Shaking off all of the negative emotions
Can't believe my heart was feeling kinda broken
Neon dreaming, spinning ceiling, what a moment
Come and dance, come and dance, come and dance

It's been so long (It's been so long)
Since I went dancing, dancing
It's been so long (It's been so long)
Since I felt this handsome, handsome

It's been so long (It's been so long)
It's been so long (It's been so long)

I looked in the mirror (Woo)
And guess what I said (What?)
I said I look good (What?)
Yeah, I look good
I looked in the mirror (Woo)
And guess what I said (What?)
I said I look good

It's been so long (It's been so long)
Since I went dancing, dancing
It's been so long

Since I felt this handsome, handsome

It's been so long (It's been so long)

It's been so long (It's been so long)
