

Attention all politicians  
Please stop using the Main Street versus Wall Street comparison  
It's fucking annoying

Well, the repo man has got a greedy hand  
He wants to take your shit, no help from Uncle Sam  
So, you're slumped on your sofa bed wishin'  
You were multiplyin' 'stead of doing long division  
Bank accounts, small amounts, you don't ball, but checks, they bounce  
Mickey D's, drivin' through, get small fries if I were you  
And it's just not fair, sporting some discount underwear  
Pair of Costco jeans, say bye bye to your good life dreams  
Every other suckers laid off because of motherfucking Bernie Madoff  
Buy and sell, might as well  
Economists don't know shit, far as I can tell

Where my moneymakers at?  
Laying low 'cause they got jack  
Goldman Sachs and AIG get bailed out free, how lame is that?  
Where's my money? I said where's my money?  
Stimulus checks not enough  
They get the bucks and we get fucked  
They get the bucks and we get what?  
They get the bucks and we get fucked  
They get the bucks and we get what?  
They get the bucks and we get fucked

If I could turn back time, hit the dial, 1-9-2-9  
They say history repeats  
But the ghosts of the past must be like, "sheesh"  
How foolish can you get?  
Deregulating markets, giving bonuses, ignoring all effects  
Take that hedge fund and shove it up your ass  
CEOs better run real fast  
'Cause now their money's half of half as big, do that math  
Uh, it's a numbers crunch, no takeout, better pack your lunch  
Homes foreclosed, six months' mortgage what you owe  
I'm angry, pinching pennies  
Every meal, eat Good & Plenty's  
Employed, I'm only semi, Benjamins, I don't have any  
If you're unhappy with these current events  
Just take one look at all our money that the government spends
