

Nothing Can Kill Us

K.Flav

I've been awake all night
Re-living what I said to you at that
Show on the way east side
God, how I wished I'd known it'd be the last time
The last time
God, how I wished I'd known it'd be the last time

Photo in my jacket
Buried like a hatchet
Touch it and it's magic, yeah
Now it takes me right back
'87 hatchback
Screaming out, windows down
Nothing can kill us

I should've held that kiss
Told you about the ways you changed my life
I'm happy you exist
Even if you sleep in a bed that's not mine
That's not mine
God, how I wished I'd known it'd be the last time

Photo in my jacket
Buried like a hatchet
Touch it and it's magic, yeah
Now it takes me right back
'87 hatchback
Screaming out, windows down
Nothing can kill us
Nothing can kill us

I've been awake all night
Driving around the city aimlessly
Trying to clear my mind
God, how I wished I'd known

Nothing can kill us
Photo in my jacket
Buried like a hatchet
Touch it and it's magic, yeah (nothing can kill us)
Now it takes me right back
'87 hatchback
Screaming out, windows down
Nothing can kill us
Nothing can kill us
Nothing can kill us
