

# Rest Your Mind

K.Flay

I know a shrink who abuses drugs  
I know a weirdo dude that I used to trust  
I met a pacifist with an axe to grind  
I saw a bitch ass girl stick it past the line  
I got a stupid friend with a dual degree  
Follow useless trends that seem cool to me  
I know a fat guy on a diet  
And a drunk girl keeping quiet

You don't wanna hang with us  
Credit card debt just banking up  
Midlife angst cantankerous  
Plus a little bit of liquors like dangerous  
But I'm drinking up, got a path to find  
In a room full of dummies that are passed their prime  
Got a wall clock telling only half the time  
Like spinning so I recommend you rest your mind

Rest your mind  
Rest your mind

I know a mom into whips and chains  
I know a sober guy trying to sip something  
I met a coffee fiend on a sugar high  
And a girl who's sad and fucking cuts her thighs  
I got a lazy friend with a baller job  
Know a grandma making lots of baklava  
Had a twosome with a DJ  
Living gruesome, up in BK  
You don't want to roll with me  
Eyes all shut, so fatigued  
Fucking shit up like it's supposed to be  
Dirty mouth would you serve a little soap for me?  
And a frozen drink, got a path to find  
In a room full of dummies that are passed their prime  
Got a wall clock telling only half the time  
Like spinning so I recommend you rest your mind

Rest your mind  
Rest your mind  
Rest your mind  
Rest your mind

Try to take a shower every 24 hours but it's harder when you just don't have the will  
Wanna rise to power but the mood keeps getting sour, so I bend my knees and cower to the drill  
Gotta get a grip up on my level, first to sit up while I cut my shit, I'm tripping as I climb  
I say it doesn't until it does, giving up like just because  
I really gotta ra-ra-uh  
Try to take a shower every 24 hours but it's harder when you just don't have the will  
Wanna rise to power but the mood keeps getting sour, so I bend my knees and cower to the drill  
Gotta get a grip up on my level first to sit up while I cut my shit, I'm tripping as I climb

I say it doesn't until it does, giving up like just because  
I guess I really gotta gotta rest rest my mind

Rest your mind

Gimme gimme something I can lean on
