

Intro

K Koke

I'll put money on your head just for face value
I put runners on the strip just to make man move
My young'uns smoke you and I'ma take my twos
He had a big issue so it made the news
MAC-11 on side, we don't play to lose
Heard through the grapevine that you're singing to blues
Got the nine on some Drake shit, singing for you
The other nine harmonise if I ring it with two
Shots tear down your block when the drillers come through
Throw the rock like Jay when we tie up your du
I'm back and not nice like the Canadian yout
The nine turn him Bruce Jenner, see the lady in you
I'm nice with it, Goodfella, I'm a dangerous fool
Your gyal want a mob tie, I don't lace her with boots
I hit it raw, now she carry cocaine for the crew
Got her moving off keys like I'm changing the tune
The strap's kicking like Lee, now you're laying with Bruce
I want the ice and the cream so I'm taking a scoop
Spilling beans to the bacon just for taking your food
How do we do it? Pepper the coupe
Now they wanna forfeit, they wanna settle disputes
These pussies all wet, talking dripping the booth
Real recognise real and I don't recognise you
I'm from the concrete jungle, I was born in the zoo
