

# Miss You, Goodbye

K. Michelle

I miss you in the day  
I miss you in the night  
I miss the way we used to dump  
But I don't miss your lies

I miss the way we laughed  
You used to make me smile  
Maybe you'll see  
When we can't be  
And then you'll come around

I need your love  
I need enough  
You left me out and dry  
In my angry pride  
It don't hurt no lie  
Miss you, but goodbye

I I wish that you could change  
But I don't think you can  
I wish that you could feel this pain  
So you could understand

I hate you're not the one  
I hate you more  
Cause my path ain't meant for 2  
But I sleep here alone

I need your love  
I need enough  
You left me out and dry  
In my angry pride  
It don't hurt no lie  
Miss you, but goodbye

And I hold on to the night  
And I pick up when I'm down  
But I wanna you  
I wanna you

If there's any hope  
My head's there  
Let it go  
My heart says: why we fall in love?  
Why we fall in love?  
But I'm giving up

I need your love  
I need enough  
You left me out and dry  
In my angry pride  
It don't hurt no lie  
Miss you, but goodbye
