

# Never Scared

K. Michelle

Our love goes  
Round and round  
Highs and lows  
And ups and downs  
Nobody told you how this goes, oh  
You gotta weigh up to cards and rose  
Put on a pretty face  
To play an ugly game

A million times  
A million lies  
Cross my heart  
And hope to die  
A million reasons why  
A million reasons why  
A million reasons why  
I still love you a million times

What I wanna say to you  
Never fear, don't be scared, I'm right here, and I'll be here e  
verytime  
Never fear, don't be scared, I'm right here, and I'll be here e  
verytime  
Never fear, don't be scared, I'm right here, and I'll be here e  
verytime  
Never fear, don't be scared, I'm right here, and I'll be here e  
verytime  
I'll be here every time  
I'll be here every time
