

Save Me

K. Michelle

Silly me
Always giving my all to you
Broke me down to be here for you
Every time
And if love was to call
Oh, I know I can't depend on you
For no, nothing at all
You let me down every time

Oh, I hope you're happy without me
But the truth is I'm tired of falling for you
I'd give my heart to beat for you

I just wanted you to save me
But you never did, all you did was
Play me
I just wanted you to save me
But you never saved me
Cause you tried to take my heart with you
Wanted to break me
I just wanted you to save me

Should have know it was a matter of time
Soon you would change your mind
You had me thinking, she was better than
There goes another lie

Oh, I hope you're happy without me
But the truth is I'm tired of falling for you
I'd give my heart to beat for you

I just wanted you to save me
But you never did, all you did was
Play me
I just wanted you to save me
But you never saved me
Cause you tried to take my heart with you
Wanted to break me
To save me

Truthfully I, try to accept the lies
But it changed me
(There was a time) I would've died
Just to prove that I was yours for life
But now is the time we put it out there
We can't be friends anymore
Build this mountain and enjoy the view
That used to be for you!

I just wanted you to save me
But you never did, all you did was
Play me, you play me
I just wanted you to save me
But you never saved me (you never saved me, you never saved me)
You try to break me
To save me

You were supposed to save me
You were supposed to be my hero
My knight in shining armor, yeah
You were supposed to be my hero
You were supposed to save me
