

Summer

K. Michelle

Always
Always
In my sight
Never thought that you could be the one to
Change my life.
I loved you way before
I knew your name.
Outta nowhere you're the
Healing to my growing pains.
When you sing
Your song
I get tears in my eyes;
I believe I can fly.
Even when you're wrong
You've done so much right
That it's all justified.
But tell me

How could you love summer
Before winter nights?
I'll be by your side.
Just tell me
How could you love summer?
I'll hold your umbrella
In the rain,
I'm down for
Anything.

When a
When a woman loves
She will let you go and
Be with who you dreamin' of.
Be quiet
When she feels like screaming out;
When she really wants to be
Who you can't live without.

(Ooh ooh ooh)

Since you were the first
To call me queen
You're the only king
I'll ever need

How could you love summer
Before winter nights?
I'll be by your side.
Just tell me
How could you love summer?
I'll hold your umbrella
In the rain
I'm down for
Anything.

Even though
You're not my own
I'll still love you

Through this song
And even if you
Turn your back
I'll still love you
Like that.

How could you love summer
Before winter nights?
I'll be by your side.
Just tell me
How could you love summer?
I'll hold your umbrella
In the rain
I'm down for
Anything.

How could you love summer
Before winter nights?
I'll be by your side.
Just tell me
How could you love summer?
I'll hold your umbrella
In the rain
I'm down for
Anything.
