

# Astronaut

k-os

That's one small step for man,  
One giant leap for--

huh.. hip hop is an astronaut  
oh, doin' my thing  
made for rap seeds like catamaran  
and I gotta crush on a girl sang delang  
built MC like Sook Yun Yang  
slang by slang is austracious  
Slipping and trip is Ellen Page is  
So contagious so courageous  
Goodness gracious let me say this  
that, it's my time breaking through  
Tip the clock it's clicking too  
Cook the pizza flavour brew  
Like my man says "aus nien too"  
In the bar individual this is individual  
this is for you  
All them haters take you to say this?  
Like batman, i punched him out  
POW!

You keep it pumpin'  
You better pick somebody  
You should be cool about it (and bring peace, yo)  
You better pick somebody  
You better pick somebody to get to know

What's up girl?  
Nothin'  
What you doin'  
Just here chillin'  
Can I drop this?  
Go ahead babe

I wish those kids watch Hannah Barbara  
I wish another me like Teagan and Sara  
I wish I had a girl who looked like Farah Fawcett  
Pause it, what in min the closet  
I once fell in love with a girl named Lauren  
Once I got ta Lauren all the girls were foreign  
And then I went away and when away on tour, and  
When I came back she had a boyfriend  
and I said "Yo, L will you marry me, will you take me to the alter and desti  
ny"  
And she said "I'm not down with the groupie scene and all these girls are be  
auty queens"  
Oh man thats what you see on the surface  
I wouldn't have popped the question if you didn't deserve it  
When they act all high profile they are all nervous  
so fellas that is why i drink POW!

You better think about it  
And let it flow  
You better think about it  
You better think about it  
You better pick somebody to get to know

I'm slowing down thoughts to the point of observation  
I came from galaxy to represent this hip hop nation  
I'm kickin' the same ol game no name fame  
The astroplane is ordained  
Play on!  
Takes us to the break of dawn  
Evaporation, I'm gone

You better think about it  
And let it flow  
You better think about it  
You better think about it  
and get to know...

Now dance with me!

You better think about it  
You better think about it  
about it  
about it
