

# Call Me

k-os

Call me  
(call me)  
If you wanna go  
we don't have to stay  
In a world that is slippin' away

Call me  
(call me)  
If you wanna go  
we don't have to stay  
In a world that is slippin' away

Face the world  
my father told me  
that life is mystical  
beautiful bliss-ful  
Now, in troubled times  
I find soul in reaching  
what I'm seeking seems so far  
praise the world  
My mother told me  
that life's mechanical  
so tyrannical  
it blows my mind  
just what we'll be reaping  
and weeping so help us god  
Never knew that I  
could be looking why  
are so many  
breaking  
making castles of sand  
every man  
wanna be the one  
wanna be the one to be  
king for a day but its slipping away  
and I'm happy  
most melodical things I say  
to release the pain  
and cease the rain  
in my brainstorm  
I can't hide  
from inside  
escape to, the outside  
and I'll be flying away.

Never know, never know  
whats right until you walking death  
everyday is just a struggle  
we take till there's nothing left  
when I wake up pray that I can see the truth between the dark  
for the rest that don't care this a message straight to your heart  
nothing you say now can turn me away  
I'm walking the path, never-le me a stray  
many they hold mics I don't know what to say  
whats going on today?  
And you walk to fast  
on the broken glass

on the smoking pass  
hoping that  
worshipping the cash  
but it never lasts  
won't you ask  
what can we be?  
can we be free?  
where can we go?

Call me  
Call me  
(if you wanna go)  
Call me  
(you can call  
Call me  
me if you wanna go)

Call me  
Call me  
Call me  
Call me

Call me, (call me)  
If you wanna go
