

SUPERNOVAS

k-os

Where you gunna go
After the party
When the party's over
Cause everybody knows
We'll be supernovas
When the party's over

Stop staring at me now
I only came to party
I'm still alone some how
I'm here to get it started
Dearly departed

B-boy and I pop out
Pull up with the top out
Don't fade with the cop out
All you rappers get knocked out
Number one spots
Now I'm in the picture you cropped out
Aye, I'm the real college drop out
Huh, some say I'm all star
Aye, k-dash, k-hovah
Me and you be supernovas, ovah

Where you gunna go
After the party
When the party's over
Cause everybody knows
We'll be supernovas
When the party's over

Girl, you got me dancing out here by myself
I'm way too young to waste this precious time
So if by chance you got somebody else
I'll be fine

K dash o - s is a smoke show
T r o n - t dot to the o tho
3rd eye's like a go pro
When I show up drippin'
Then dip like a no-show
E.T better phone home
Or I might act up and make you love me like the ozone
Found you in my old phone
Touch down in an end zone
Now he's in the friend zone

Where you gunna go...
We'll be supernovas...

Where you gunna go
After the party
When the party's over
Cause everybody knows
We'll be supernovas
When the party's over

Girl, you got me dancing out here by myself
I'm way too young to waste this precious time
So if by chance you got somebody else
I'll be fine...
