

Come Alive

K's Choice

Take us to your darkest place
The lonely sound
Of air we waste
It's swallowing my mind
All the way

Time will break us if we falter
And life won't wait for us to come alive

I chose to walk a narrow path
I can't believe the space I have
It's swallowing my mind
All the way

Time will break us if we falter
And life won't wait for us to come alive

Come alive

Time will break us if we falter
And life won't wait for us to come alive
