

If This Isn't Right

K's Choice

I hear within the lies you hide
Your shifty eyes the way you won't come near me
I know you've tried and tried and tried
You somehow just don't really seem to need me

If this isn't right for you
Don't make me wait for you
Just tell me to go and I will go
Baby I won't be at your door
Begging you "please don't leave me be mine"
Stop wasting my time
If this isn't right for you

I liked the life I'd love to learn myself
I'm sure I'll do the way around you
Cause you're a lot of things but not so strong
If you don't think that I can live without you

If this isn't right for you
Don't make me wait for you
Just tell me to go and I will go
Baby I won't be at your door
Begging you "please don't leave me be mine"
Stop wasting my time

You can go now
Even if you're not so sure now
And I will help you close that door
I will be the one you should have waited for

If this isn't right for you
Don't make me wait for you
Just tell me to go and I will go
Baby I won't be at your door
Begging you "please don't leave me be mine"
Tell me to go and I will go
Baby I won't be at your door
Begging you "please don't leave me be mine"
Stop wasting my time
If this isn't right for you
