

Meaningless

K's Choice

I look at the sunlight
Troughing shadows on the street
It looks so bright
It should be the best I've ever see
But it's meaningless to me
And you're not here to see with me

I look at you all
Thousands of hearts are beating
They're all in love
It should be the best I've ever seen
But it's meaningless to me
And you're not here to see with me

I still hear you laugh
Like listening the sound of meaning
A photograph
I look at a life that could have been
And it's meaningless to me
And you're not here to see with me
And it's meaningless to me
And you're not here to see with me
