

Where Did the Love Go

K's Choice

Children walking hand in hand
Happy faces building castles in the sand
Ain't it funny how the world just moves along
And I can't even think about tomorrow since you've gone

Where did the love go
Did you feel it slipping slowly
Through your hands, oh-oh
Where did the love go
If it's all the same to you
I'm gonna close my eyes to all of this
If I can't be with you, I'll just pretend

So the truth remains untold
It's unforgiving and it's cold
Even in your darkest hour
Can't you see this love was ours

Where did the love go
Did you feel it slipping slowly
Through your hands, oh-oh
Where did the love go
If it's all the same to you
I'm gonna close my eyes to all of this
If I can't be with you, I'll just pretend

Where did the love go
Did you feel it slipping slowly
Through your hands, oh-oh
Where did the love go
If it's all the same to you
I'm gonna close my eyes to all of this
If I can't be with you, I'll just pretend

Where did the love go
If it's all the same to you
I'm gonna close my eyes to all of this
If I can't be with you, I'll just pretend
