

Different Day

K-Trap

Same shit, different day
Same old fork and different flakes
Same old mission, getting rich
Same old lines, but different flips
New waps, different clips
Same old trap with a different bitch

Same old shit but I'm glad it's a different day
Cah I got friends that's gone, I'm pissed and I miss them more each day
I swear my life needs a change, my mum thinks I should aim more high
But last year I broke down an eight for light and know I get quarter pies
Young nigga just progressing
Still jugg, trap, finessing and some violent shit I can't mention
I rap what I live, I can't help but talk about raw in my pyrex dish
Getting to this money and filling this rusty spin with five or six
The opps them ain't on piss, all a man know is type and diss
Me I just get to angry and fill this clip and slide it in
How many times am I gonna go risk my life
Go round there and see no one, I go back home and be pissed all night
I rather kickback and bag this box
Plus my young boy's got it in a headlock, opp block wild just damping tops
My lifestyle's mad, I'm nowhere rich still gotta link tramps and spots
And walk off to a new message saying that it's good and thanks a lot
Bando coming like barclays, cause my soldier banged a lot
Cause it's like I'm on the obo, every other day feds swam the block
Man just under pressure out here and it's no thanks to opps
It's the trident, they want us in jail no bail but they bang up and canaten'
s long

Same shit, different day
Same old fork and different flakes
Same old mission, getting rich
Same old lines, but different flips
New waps, different clips
Same old trap with a different bitch
Same shit, different day

Even though canteen in the bang up is long, I still gotta pack this.44 long
For my safety sake, cause the roads ain't safe these days
The pigs moving Kojo and Bane, they just want to take me away
The plug just dropped more weight, probably just take me a day
Cause I'm good at buying and selling
How do you think I got the K on froze and I step on roads in the flyest deni
m
I see all the red in a eye, I dare they try my guys will get 'em
M with the fours that's frying, that's my guy he'll fry your melon
Everyday I got paper plans, Misch and Masch that's the gang
Get that understood, corn for a boy, who don't understand
I'm a stay running these lines, couldn't care less who runs a man
Cah I got a handful of brothers, I never needed a hundred man
Bro wants a terrorist charge, keeps saying he needs him a hundred clips
That's a myth, I more want me a hundred bricks

So I can quit the game
Cah I'm getting tired as hell of doing the same shit different day
I'm getting tired as hell of doing the same shit different day

Same shit, different day
Same old fork and different flakes
Same old mission, getting rich
Same old lines, but different flips
