K-Trap

Nike Tech when I hug the block
Them man chattin', I just shrug it off
Cah them men are feds, they can't link the guys
Behind closed doors probably hug the opps
Ain't in the streets, then I'm VIP
Security gotta guard it off
Pull up outside, gotta park the ride, if they're searching the guys, gotta park it off
Fill the section with different shades
We don't want no gyal that's gonna misbehave
I just see two different tings, now I'm going on two different dates
Flake, two different bowls
Me and them man are heading two different roads
A thousand of each, that's a brick of both
Break it all down then I hit the roads

Different, different
Can't put me with them man cah I'm different
Boujee, the gyal hit me up and I miff them
Sorry babe, you gotta love me from a distance
Probably 'round there at the club or the kitchen
Bring the gang there so you wouldn't miss them
Plain or I can get the buss down that glistens
Lane put me on the far right and I'm missing

Bag full of cash got me paranoid
I'll be damned if the door goes
Still fill a next one with more dough
I gotta change this spot cah the pigs like raiding lots
So I do the smart thing and save a loss
Catch me in the club or the same old block
Or of course man, the kitchen, my favourite spot
You ain't done drills, had to dash that skeng 'till it's dark
Now you're back tryna save the dots
Left and right for the blue lights
First time OT, I done two nights
First time in the truck, I had three tings
Four bros, tell 'em "squeeze in"
They probably can't 'cause their thighs too thick
And they ain't got a clue what's going on behind these tints

Different, different
Can't put me with them man cah I'm different
Boujee, the gyal hit me up and I miff them
Sorry babe, you gotta love me from a distance
Probably 'round there at the club or the kitchen
Bring the gang there so you wouldn't miss them
Plain or I can get the buss down that glistens
Lane put me on the far right and I'm missing

Different matter
Everyday I hear different chatter
Couldn't care less, I just run a new cheque and as far as the snakes got a d
ifferent ladder
Party, I was on the dance with the pock' rock', opp block, had to bring a di
fferent hammer
Try shoot with the skeng and a red cam, for them man had to use a different
camera
