

# Exit

K-Trap

Beats by Malice

Four hammers in the back  
Yeah, I brought out the ten and the four in the patio  
Fifteen when I met that twelve  
Money spent well, that's dots gotta carry home  
Them days I got the drop on them  
And mum's tryna tell man hoover the stairs  
We ain't reach that block  
But we saw them there so we're doing them there  
Bae said what you're doing ain't fair  
She just wanna arch it, meanwhile I'm block bound  
Fours and the dots, brand new bike  
Tryna fiddle about and start it  
Cah I just spot me one and spark it  
Park it, then I met mum or auntie  
Can't ask me, tell you I don't know nothin'  
That night, I was with bae-bae cuddling  
Now fans tryna give man hugsing  
Same city, man's hugging  
Hard food, no dumplin'  
Shot half a brick then shell down Dublin  
Clearly lit, no Zara  
That's a Amiri rip, no shotgun  
That's a whole movie clip  
Can't walk with the dinner, I'll Uber it

What you reckon?  
Let that sneeze, I'll bless him  
Come t'ru the entrance unexpected  
Leave with a exit  
Whip it and put it it in a press, and stretch it  
Amiri or I can do it in that Tech fit  
Either, either  
Tied to the plug like, I don't really need a Lyca

If I say it's truth, I'm hardly wrong  
Tapped, bottle of coke for the dots  
'Cause it's been in the garden long  
Trap, half a brizz of the lizz  
And I got a next half in Bobs  
Let me park this Range  
And she don't mind parking off  
Bricka boy  
Stamp on that packet  
Got it under feet like Floyd  
Bro came with the maj like Troy  
Shush and whoosh, you won't hear no noise  
I was in the T house

Really put light and buj in the foil  
Didn't need banks or lawyers  
And still my account is void  
I ain't doing up F  
A need for stretch, I'm doing up press  
Bae looks good and my ex was vexed  
Chequered LV and I got cheques  
Cuban set  
VS pop up, brick on the neck  
I see you stressed  
More is less  
That's why I can't talk 'bout waps  
I just go and get more instead

What you reckon?  
Let that sneeze, I'll bless him  
Come t'ru the entrance unexpected  
Leave with a exit  
Whip it and put it it in a press, and stretch it
