K-Trap

You niggas weren't sitting down for this
Niggas never had no feds on their back, they weren't in no war
They weren't flying no birds

Feel to just take this mask off, everyone confused there
Talking wass and hiding face, and I step and stone to music
Everyday I hear man talk reckless, ruthless, now man's gotta prove it
And if I rap 'bout bootings, it's cah I been booting
And if I rap 'bout bricks, it's 'cause I've got a 36 in a stash box
4 and a door in a crack pot, still tryna download beats on a laptop
How long have I been juggling both?
Studio time and a engine, nearing a Pyrex bowl and stove
Hit that show, I'm bringing the smoke even though man don't smoke (Whoosh)

Never done it for likes, couldn't care about fame, why I hide my face
But there's too much animosity around it cah them man copied and made it childish
And if you're talking setting trends, then that's me and L
Hid my face cah then I tried do it with the.12, they don't want 'em to see and tell
Just met a new cell, talking A and B
Took my number, first time he came to re' he pulled up playing me
He didn't even know I'm Trapo, bet if I tell him I'll make his week
Half a brick and a 9 of [?], dummy 9, I made a key
Said she wanna take this D, I told her "maybe", I made her week
Showed her what a man made this week, now she wanna shave the beat
I just make her top it, I ain't gotta ask her who's real, it's obvious
A thousand G's on the counter, treat it like the dotty and chop it
Chop it, chop it down, hit water, it's locking now
Where you get that 'matic from? I don't know, the lost and found
Where you get that package from? I don't know, I think abroad
Took man lightly, now we're in a Ford tryna fill 'em with corn

A mask ain't ever made me feel bad, if you thought that, you're tapped
Cah way before it was rap, it was me tryna double tap that mash
Sweet one told me I'm nothing like the man she thought I was, she's so shocked
Put half a brick in a pot, then I went and bought a watch
Got an invite to the party, then I went and bought a drop
What did I cop? Louis kicks, Louis top
Done copped me the dots, pocket watch but I need me a mop
30 shots, turn that top to a crop
Feds wanna stop for a previous
Said they got calls about a man with a mask, must've been Hope Dealers, genius
Bando come like a horror, walk in the T, it's Jeepers Creepers

A lot of man look like how I look [?]
