

## Next To You

K-Trap

Took some time off, tryna get my mind right  
Tryna cut negativity and bad vibes  
I see you shining, smile be so bright  
Makes me wanna know, can I get next to you?  
Next, oh, next, next, oh, next  
Can I get next to you?  
Next, oh, next, next, oh, next  
Can I get next to you?

Yo  
'Member I used to walk to school and the 322 was packed (Full up)  
Years went by, the star nine full and the .32 packed  
I used to go Sunday school, just roads way and sat at the back (Back)  
'Member when I took that food and my line was slow (Yeah), had to sit on the pack  
I tried every hustle out (Yeah), I was literally up and down (Yeah)  
School days, used to muck about, met real good friends, still love them now (Yeah)  
Probably say, "Trap's gone Hollywood", I ain't see 'em in years and years (Ugh)  
Ain't all what it seems, I wiped off tears and tears it's bitter sweet (Yeah)  
Times I wish I could go back (Go back), then I feel ungrateful (Ugh)  
But I know it ain't that, I just can't explain (No)  
All this money in large amounts can't cover up half this pain (It can't)  
Even though I could think of a few, I find it hard to blame  
And I can't, in fact (No)  
And I can't cry no more, gotta laugh, in fact (Laugh)  
Even though it's darker than ever, I still got my heart intact (I do)  
And I feel that's all I need (I do)  
Been through all this grief (Yeah)  
Why they doin' me wrong again? (Why?)  
And why is it all for greed? (Ugh)
