All I knew was clips and chambers, pyrex dishes, tonne machines
Back then, when the aim was a 100 Gs, now that's on my sleeve
Before I done a hundred-thousand streams, I had a one-fifty-thousand re

It was really counts before the accountant
Signed a deal and said I'll stop, same week had the boots out
Money ain't even hit my account yet, it's rowdy
We turned Lambeth maps to Saudi'
We took Trey's and MACs on outings
We got flavour packs and counting

Came up in the kitchen space bricks of yey and a little plate
Got them on tick, I owe them man 50K
Tell you how it went, I got 21st-century blues like Raye
Try put them on the news that day
No shotgun, its different shoes that day
Bro said the 40. ran out, so we got to switch machines
Had a brownin' with men on the table looking like Libertine
Mad when you're sitting with the mop and you miss the drop and you wish you cleaned
Mash link came then we rizz up crime, run out of bine
Made the yard man fix up the teeth, he's quick like Invisalign
Rapper boy still smelling like powder, I feel like it's embedded
Bro just called got to give him his credit, and bro just scored, got to give him his credit
Mad how I'm so far gone, but way too close, it's a crazy thing
Breaking through, I was tryna break the pin on the 380 spin
Really had the clamp so tight on the brick at one stage it was that all I had
Now I'm in the flagship store outside, tryna make sure it's all in bags

All I knew was clips and chambers, pyrex dishes, tonne machines
