

# Shivers

K-Trap

Zhocold Music

I just walked in with a reload (Reload)  
Caught me shivers  
Tighten up that presser  
"Alexa run some riddims" (Run it)  
Talk but we done did it (Did it)  
Walk with it on me, I'll bring it (I'll bring it)  
Swear down it's there they're chillin' (Hah)  
Fill it, give me a minute (Minute)  
Drill it (Drill it)  
I swear it weren't me  
Mop (Mop)  
Clearin' the scene  
G-17, they're hearin' it glee  
Generous kid, sharin' the sweets  
The more they pree, the nearer it be  
A hundred bine, I'll air for weeks  
Ice in a pot, I'm lettin' it freeze  
Wait 'til it locks then bear with me (Me)

Told bae "book that spa"  
She told her friends I'm sweet (Ha)  
She don't even know  
Me and bro wanna tape that street (Tape it)  
Two bricks, I'll take a week  
Ten bags pro, go Tape this week  
Chocolate brown with a great physique  
She wanna shake it and take this D (Take it)  
Told a begger I ain't got change  
Just copper heads when me and them meet  
Before I saw P's from sales and streams  
It was really me in the T (Trapo)  
Let pee-wee pree (Ee-ee)  
Fleein' the scene  
Summer time with a plain white T  
But it's Louis V discreet (Low)  
Don't talk at all if you miss  
Thirty six, get that fork in the dish  
Don't know how them man got me on a list  
Walk with a wicked skeng like Flipz  
Macaroni, portion of chips  
Seventeen with a rare shotgun with the clip  
Jump out the whip  
Let the steel bang, they run through the mist (Run)  
Pretty little ting got drip  
UK Gossip, I made you think  
Her crib where I untape them bricks  
Private Snap if you take that pic  
Tell me if you really take that risk  
Fifty quid when I shake this wrist  
Fresh out the bando, I made a hit  
Saw it was both that made me rich

Anytime the mandem get fed up, pull up (Neaw)  
Air it  
Tape off that corner  
Tellin' 'em don't go near it (Don't go there)  
Bro's generous but devilish  
Anytime there's corn, he's tryna share it (Argh)  
If I had two different spinners  
Spent all day just tryna compare them (Have you?)  
My Florida ting got flew in  
I blanked my UK ting, she's screwin'  
If only my man knew it (Knew it)  
.44 flats t'ru him (Hah)  
Foreign bitch, English ain't fluent  
But she can say Chanel or Louis (Yes)  
Ever seen on what rapper's wore  
It's probably Chanel or Louis (Yes)  
Dior but I ain't gotta say it (No)  
It's war but I ain't gotta say it (No)  
Ever been on the block, no one wanna skate  
Stepped out and saved the day? (Ha)  
Love when I see R6 and Sizz  
It was probably a score that day (I love it)  
And the fans want a new mixtape  
So I can just tell for days (Yeah)  
My man screamed when he saw it late (Ha)  
Lucky it jammed, would've corned his face  
From young I knew that I'll be paid  
But gotta love G, taught me game  
Argue with Rose and I told him wait  
He just wanna go and put them away  
Ever had that thing on you on the mains  
And they're tellin' you, "No, just put it away"?
