One life to live  
So little time  
One time if you don't give a fuck  
If you don't got it by now you should give it up  
Caution to the wind and if it ain't enough  
You got a couple middle fingers you could show 'em off  
You can't please everybody  
'Cause everybody don't fuck with you  
You only got  
One life to live  
So little time

City right behind us (hol' up)  
I did it for the love but (hol' up)  
I tried to do it your way  
But that shit wasn't workin' (hell nah)  
The benefits wasn't perkin' (oh nah)  
The money wasn't twerkin'  
Them hookers wasn't lurkin' (hol' up)  
Financials on Fraiser (fraiser)  
Down for the countdown but I got  
One life to live  
So little time  
I learned the hard way that 2 hands can only do 2 things at the same time  
And that's pushin' it  
It's very seldom I see a limit and if I do then nigga I exceed the shit  
I got to they depend on it  
Raised in the background  
Where I come from they wanna push you back down  
I know the road to success put that map down  
We only got

One life to live  
So little time  
One time if you don't give a fuck  
If you don't got it by now you should give it up  
Caution to the wind and if it ain't enough  
You got a couple middle fingers you could show 'em off  
You can't please everybody  
'Cause everybody don't fuck with you  
You only got  
One life to live  
So little time

Well if you niggas wanna waste it, go ahead be my guest  
Doin' the most to impress, but me, I'd rather invest  
It's some shit that's gon' build, c'mon bro lets be real  
Your hands too clean, you niggas not in the field  
That ain't the character of real niggas  
Nah, you should be in the film (wah?)  
As talented as you are nigga  
You might just end up with an Oscar nom'  
But meanwhile, real mothafuckers is starvin'  
And you lookin' like an Oscar Mayer  
Wait, huh, you really wanna have debates  
On who did what, when, where, why, they savin' face  
All that shit you talkin' nigga ain't your saving grace

You lose your focus they'll pave the way and then take your place  
Eat the, food off your plate and complain about the taste  
Tried to live to lives but failed to realize it's

One life to live  
And time flies by like a  
So little time  
Biiitch  
One time if you don't give a fuck  
If you don't got it by now you should give it up  
Caution to the wind and if it ain't enough  
You got a couple middle fingers you could show 'em off  
You can't please everybody  
'Cause everybody don't fuck with you
