

All The Way

K.A.A.N.

Yeah, li-light one up for the fans
Get you some likes on the 'gram
Oh did you like what I'm sayin'?
You made my night with a dance
Let's take a flight to Japan
My heart like bike in the sand
You froze it right where I stand
Open that mind, I'm your man
I can't deny what we have
You look so fine when you laugh
I feel that light when you pass
You landed right in my hands
Let's take a ride on the Ave
Got maybe right with the ass
Enjoy the night, make it last
The nights with you are the best
It might be rude just to ask
But can we move to the back
I like your booty in that
I'm going loony for that, girl
Not Scooby but can you be my snack, girl
You're my favorite movie, like the way that you act, girl
Introduce me to that world
Don't look at it backwards
Ain't movin' too fast, girl
Shoot you my password
You groovy like that but you can choose what you're after
No room for disaster
In the move give me that words

Take me all the way with you
I won't say a thing
If you want me I want you too
I won't play no games
Take me all the way with you
I won't say a thing
If you want me I want you too
I won't play no games

Nigga I'm not one to get sentimental
Just let me articulate it
See I might get off track
But I bet I bounce right back
And I know who I am, I
Been a man of my word, like
Well it's fuck what you heard, right
Never stuck on no stagnation
Feel the blame, it's my fault, maybe
Well I guess it's your loss, baby
In my book, see, we all crazy
Can admit that we all crazy
That good L-O-VE
Can't script that for no TV
That's the goal like a TD
Me on my own, never TD
I want trips to the islands
Where it's secluded and tropic

I give my all, feel the [?]
Boy, that's my nature like Ric Flair
You arrived to this conclusion recently but I been there
For the sake of time I let you breathe, reflect upon these many things
We living to fallout (fallout)
Never known without a lifeline
Goin' in and out of a callout
Said I'm ready for the light now
I need all of you to pipe down
Gotta make a tough decision, I
Swear to God a nigga livin' right
We only get one in a physical form, Lawd

Take me all the way with you
I won't say a thing
If you want me I want you too
I won't play no games
Take me all the way with you
I won't say a thing
If you want me I want you too
I won't play no games

Take me all the way with you
I won't say a thing
If you want me I want you too
I won't play no games
Take me all the way with you
I won't say a thing
If you want me I want you too
I won't play no games

Take me all the way with you
I won't say a thing
If you want me I want you too
I won't play no games
