

# All We Got

K.A.A.N.

I said we all that we got  
I said we all that we got  
I said we all that we got

I can feel the pain and pressure, too close  
I done failed a million times, tell 'em I know  
I relate to you when most, they don't  
It's a beautiful thing to be self-aware  
So when the nights are long and dark, too cold  
When it's all too much to handle, don't fold  
Try to find your faith, no forced euphoria  
But the false and fake, they fail and don't return  
I reciprocate the reciprocity  
The reciprocal of love and all you need  
If I spread the word and it's heard, I do believe  
The power I possess, the true elite  
Giving my all  
Giving my heart  
Giving my soul  
It's taking a toll  
And I can admit that  
Given so much and now I want my shit back  
I need my time and my peace of mind  
I need everything that I left behind  
I need all the love that I threw away  
I need all the days that I can't replace  
I want to take it back, reverse all my efforts  
Still remember them brighter times  
Before the dream became this obsessive  
Before I learned all these life lessons  
Before I second guess overthinking  
All indecisive, just make a choice  
Nigga don't be sad, just use your voice  
And this clarity yes I do rejoice  
And I trust my heart, but that's not enough  
It's tough to bluff your way through life  
I slip but don't break  
I'm real when they're fake  
I can when they can't  
The fake I've fought past, I've had the last laugh

I said we all that we got  
I said we all that we got  
(I said we all we got)  
(I said we all we got we got)  
(I said we all we got)  
(I said we all-)  
I said we all that we got  
(I said we all we got)  
(I said we all we got we got)  
(I said we all we got)  
(I said we all-)  
I said we all that we got

One type of kid  
Man I like this shit  
Ain't no hype in this, man it might go in

Grab the mic with the light on my skin  
Want to bite, take a swing might miss  
Conversation about life we in  
Thought a lot  
We hate  
Relate the date  
I ain't straight  
For the mind to decline kid  
Mind your biz  
Every time it is  
Where the grindin' lives  
Cheer aloud, drink a Sprite with gin  
How you feel now, still need a Vicodin  
I'm invited in  
I light a spliff  
Imma fight like Mike until the time it ends  
Analyzed but ya plead the fifth  
What it means  
Gotta eat too  
Wanna be cool  
Wanna be you, that don't make sense  
Gotta make do  
Gotta pay dues  
Let them hate too  
Never been here to make friends  
Never let a snake back in  
Never let a fang sink in  
Better know you're laying in the Inn  
It ain't been the same since 2010  
For the government, they gonna win

I said we all that we got  
I said we all that we got  
(I said we all we got)  
(I said we all we got we got)  
(I said we all we got)  
(I said we all-)  
I said we all that we got  
(I said we all we got)  
(I said we all we got we got)  
(I said we all we got)  
(I said we all-)  
I said we all that we got
