I need that brand new continental with the paint upon, drip  
While they riding close I let the mothafucka, slip  
I'm minding my business tho, I never give a, shit  
Flow is like a gun, a semi-automatic, clip  
Better move quick this the intro  
Let me make a stampede with the tempo  
Show these stupid mothafuckas what they in fo'  
But tell 'em all to pay attention when I rhyme, ho  
I heard you niggas got the dough well imma need you to present it  
If the shit is slept on, you can take it where it came from  
Your surface level well man like you treading on the water  
I should step it up a level but there really ain't a point  
Imma relax with a blunt and watch a movie in the zone  
Find me posted in the cut they call a nigga come along  
Spitting fast upon the beat, I separate it then adjust  
Justified the feeling for this fortified and pretty pure  
If you coming with them games, get the fuck up outta here  
But let a nigga make it clear, I fear nobody in my presence  
They say they want the realest, evident that I present it  
Melodies and fancy fills but I pray they can see the message  
A method to the man is a secret imma keep it  
The dopest mothafucking breathing nigga please believe me  
To get to where I'm at I swear to God it wasn't easy  
Man I do this shit for me I've been a partial to appeasment
