

# Countdown

K.A.A.N.

Eh

Eh yeah yo yo

Check the standards  
I don't think we droppin' the same drools  
Mind your manners  
Where I'm from we never follow the rules  
Questions answered  
Dancin' with my demons at high noon  
'Nough semantics  
'Bout to flood this bitch like a monsoon

Open the gate to let gaze begin  
I hope that you play to win  
Keep your cards close to your chest  
Then don't ever show you hands  
Exposing your master plan

A hell of a habitat  
This the studio where we cookin'

We servin' delicious track  
Organic what I planted  
No additives added after that  
Hoppa chop the sample  
We cut the words like a battle axe  
This big steppin' Paul Bunyan  
Swingin' like a lumberjack

On the attack  
One on your back  
One in your dome  
Leavin' you flat  
Unleash the pain  
We lettin' it rain  
Once you hear this motherfucker drop  
Then you goin' insane  
You'll never witness anything that resembles this again

I say one for the lights, two for the life  
Three for the weed that's got a nigga this high  
Four for the vibe, five for my tribe  
We gon' live forever we ain't never gon' die  
One for the lights, two for the life  
Three for the weed that's got a nigga this high  
Four for the vibe, five for my tribe  
We gon' live forever we ain't never gon' die

The biggest entity's gon'  
We see the mess and afterthoughts  
I'll catch you niggas after dark  
Then grab the light to let it spark  
Shall we embark upon this journey  
It ain't no walk in a park  
To get surrounded by them animals  
That might just test your heart  
Few false starts then they gon' throw the flag

A body bag and a toe tag

And then you crash, where did you land?  
In the timespan that you did spend  
They lookin' at everything as just the means to an end  
Before the bell rings

The voices inside of my head are the only one they listen  
(The only one they listen)  
(The only one they listen)  
(The only one they listen)  
(The only one they listen)

I say one for the lights, two for the life  
Three for the weed that's got a nigga this high  
Four for the vibe, five for my tribe  
We gon' live forever we ain't never gon' die  
One for the lights, two for the life  
Three for the weed that's got a nigga this high  
Four for the vibe, five for my tribe  
We gon' live forever we ain't never gon' die
