

# Doubt It

K.A.A.N.

La la la la la la  
They know I I  
La la la la la la  
They know I I  
La la la la la la  
They know I I  
La la la la la la  
They know I I

You say you do I doubt it  
Say all you do is follow  
My vision never cloudy  
Nah you ain't really 'bout it

You say you do I doubt it  
Say all you do is follow  
My vision never cloudy  
Nah You ain't really 'bout it  
Really, really 'bout it

Plus all that I hear is bullshit comin' out your lips  
All I hear is broke rappers talkin' bout they rich  
All I see is small fries actin' like they big  
All of this ignorance is somethin' I'll never get, get  
Get it while you can  
You know why you still livin'  
Let me put you on some game  
It won't even take a minute  
Just keep workin' through the pain  
And you'll see the plain difference  
Tell 'em I done seen it all  
And I'm still refusin' to give in  
Check the temperature of us  
Feel like a soldier in the field  
I said I'm goin' for the kill  
Your shit is weak my shit is ill  
Its over drownin' over time it's all I'm pull up climbing  
And I could give a fuck if you agree with what I'm doin' alright  
The vision only 20/20 if we talkin' hindsight  
I was playin' mathematics you know black on both sides  
Elevated to a level where I'm feelin' past high  
Try to tell 'em there is really no comparison to

I, I, I, I  
I've been fuckin' signed  
Yes Lawd, I feel like Daniel son  
Just wait  
I'll show you I'm the one, one  
Ice runnin' through my veins  
We could never be the same  
I, I, I, I know what I want  
I do  
I'll never be like you  
That's true  
You're losing big 'cause you chose to  
I think you got it all confused

There's a reason why we at where we at  
Survival of the fittest knowledge will acknowledge it  
It's natural selection some of us will fade and fall  
Then disappear into obscurity amongst it all  
The other half will ascend to somethin' greater, I  
Can see the vision in my mind but can't articulate it  
As frustrating as it seems this reality is  
The farthest thing from real it's funny that we call it that shit  
Cause if you think about it really we just die to exist  
The fear of missing out is silent no one notices us  
We take for granted what we have and then obsess about the things that we do  
n't  
Complain about the smallest problems and a list of our wants  
Cause the things that we buy  
They cover up how we feel  
You insecure about some money man that can't be healthy  
Lost in the deep screamin' someone help me  
But they won't cause the world is selfish
