Eh, fire emerging, you heard of me  
Uh, eh, certainly, certainly  
Uh, I make a move with the urgency  
(Move with the urgency, urgently)  
Said that it's evident  
Uh, nigga I see what your purpose is  
(I see, yeah)  
Serving it, serving it

Get to the bag, get to the top  
I'll never stop, give it all that I got  
I wanted more so I plan and I plot  
Didn't do the minimum, I do a lot  
Turn into something, they look at you shocked  
I run the plays, I take the shots  
I think you mad 'cause I am what you not  
Not in the mold, outta the box  
Cream of the crop, I am in tip top shape  
Fucking with me, no way  
You will be D.O.A.  
Nigga is he okay?  
I cannot call it, I got a grip on this shit  
Like the handle of an alcoholic, I am a monster  
I got the answer to all of the problems  
Is it the content or is it the conscience?  
Is it the wins or is it the losses?  
Who is at fault then?  
This shit is sick and it might make you nauseous  
Talk to the bosses  
Either that or you decide for yourself  
You should probably get some help for your health  
Or get to the wealth, eh

Eh, emergency-mergency  
Eh, fire emerging, you heard of me

They got it fucked up evidently  
I'm an anomaly, you an amenity  
I want the lump sums and the remedy  
Crush the economy of all my enemies  
Ain't no apologies, digging the sediment  
Sending you right where you came from  
Told 'em don't play with the pictures  
Be realistic nigga, I got the same one  
Where is your heart, where is your drive?  
I bet you folding up when we collide  
You ain't original, you a collage  
We make 'em disappear like a mirage  
That shit is typical, I am the pinnacle  
I'm upper echelon, I am the pivotal  
I'm sounding good and you niggas sound miserable  
Call up an ambulance, it's getting critical  
It's either [?] I doubt that you got it  
We had to keep this shit going  
Progression my nigga, no we never stopping  
These days I'm only concerned with the profits  
What is the overhead, where the deposits?  
Outta the picture but in the composite  
We got this shit and it's sounding atomic  
I'm 'bout to drop it, my God
