K.A.A.N.

Get this straight
Get to the point I got a lot on my plate
Bitch I feel great
Push it to the limit do whatever it takes
Gas in the tank
Going full speed like I got no breaks
You don't relate
To live like this what the fuck you think it's

It ain't what you know it's bout what you keep off the record

I read through the lectures

Playing the part

Get in to deep then OD

You become a heath ledger

Predictable measures

Fighting the sickest vendettas

Ridiculous pressure

I'm not concerned with minimal

I was focused on the pivotal

Put myself in a position to win living

Out of pocket in the city of sin

Trying to make it happen one way or another getting to it off of digital spi
ns

No the vision isn't capitalistic

It's categorized as a means to an end

Jumping head first in the deep end

Nigga I ain't sinking I'll swim

I understand what it is and I get it I get it
I'm still in tune with my vision
I am aware that this shit could take more than a minute this a marathon mission
I'm digging deep in my soul I'm in control
I'm in control I'm driven by my convictions
I put the wheels on the road pushing it forward I know that nothing is given
How in the fuck do fold claiming you great
It's either in or on you this shit is innate
I don't feel like we the same deal with the pain to get to the gains
I know the rules to the game stay in yo lane that's how you remain my God
