

## Fade Away

K.A.A.N.

Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away

And I just fade and float away from you  
The almighty, most highest, who I'm speakin' to  
You got an issue with this truth, then I'm gon' pray for you  
I never catered to the lies, I can't attest to those  
True believer in this shit  
Cigarillo roll while I was stretchin' for the finish, bitch  
Close my eyes and let the Lord take control of these sentences  
Repentance through my penmanship is plentiful, Lord  
Pick yourself off the ground, you're looking pitiful, boy  
Like where's your pride at, don't hide that, this spiritual text  
I flex on my vernacular, hundred percent on my test  
I feel like a fuckin' king, don't want no crest on my chest  
I got this shit all by my lonely, I'm gon' need my respect  
I got a plan, it's foolproof, I couldn't fail if I tried  
I got a hustle that's revered, I work with all of these guys  
What I supply is peace of mind, this shit is food for your soul  
We livin' in some crazy times, this world is out of control  
But I'm still playin' Machiavelli, dissecting the message  
The dank Illuminati very know nefarious shit, Lawd

Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away

Now take me back to clear waters  
Where your sons and your daughters  
Got no fears of no monsters  
Yeah they young but they ain't takin' no losses  
Ain't no scarin' the process  
Don't compare it to all us  
Who haven't quite tasted the freedom  
Why don't you sip it up  
(It's divine water baby)  
I need a bigger cup  
(We could drink it all, baby)

I feed my spirit til I hear it like a beating drum  
(Oh bo-bom, oh yeah-yeah-yeah)  
Know where your heart at  
You workin' hard at  
Workin' so smart that  
This test don't hurt you  
You gone so far past  
These pests don't bug you  
The rest will hug you  
The best will love you  
(Oh yeah-yeah-yeah)  
You'll bless 'em won't you?  
You'll bless 'em won't you?

Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away  
Never wakin' up from a dream  
Never wakin' up from a dream  
I just fade away
