

Wipe me down when you see me, I'm the illest you know  
Roll a pound when you see me, we got plenty of dope  
Light the blunt and meditate, that's the remedy though  
They plotting on my downfall, why they envy me though?

Paranoid, think they put a fucking tap on my phone  
I been looking round the corner, I been talking real low

Pushing on the pedal, moving, boosting my adrenaline
