K.A.A.N.

I tell 'em, speak on it
You won't see the vision if you, sleep on it
Time don't wait for no man, it just, move forward
No we never stop it, we just, keep going, keep going

Patience is a virtue that we know too well
Keep going, keep going
Patience is a virtue that we know too well
Keep going, keep going
Sacrifice to get it, we been in it, yeah we ten toes
Nothing's overnight my nigga, yeah we got the memos
Stalling at the runway, I said we just tryna take off
Keep going, keep going

Speak on it
You won't see the vision if you, sleep on it
Time don't wait for no man, it just, move forward
No we never stop it, we just, keep going, keep going

Insight, insight, insight alright, I got it, got it
All day, all day, all night, all night, I'm on it, got it
I been, I been, searching, looking, find it, find it
This way, that way, your way, no way around it, round it
Low-key, low-key, like a nigga [?]
Like a nigga been too on, too on
Nevermind, go too hard, too hard
No, it's never been too much, too much
You could see the way I moved up, moved up
Keep it moving like a four door, four door
Keep it going 'til they want more, want more
It's not that complicated
Never stop I need that forward progress baby
Niggas in that rearview lost the concentration
Tryna force the issue, rushed the process maybe
That's just an observation

All good things take time
You might not know that now
It might just not work out
You'll find a way somehow

I tell 'em, speak on it
Sleep on it
Move forward
Keep going, keep going

Patience is a virtue that we know too well
Keep going, keep going
Patience is a virtue that we know too well
Keep going, keep going
Sacrifice to get it, we been in it, yeah we ten toes
Nothing's overnight my nigga, yeah we got the memos
Stalling at the runway, I said we just tryna take off
Keep going, keep going

Speak on it
You won't see the vision if you, sleep on it

Time don't wait for no man, it just, move forward
No we never stop it, we just, keep going, keep going

You might not know that now
It might just not work out
You'll find a way somehow

Time don't wait for no man, it just, move forward
No we never stop it, we just, keep going, keep going

You might not know that now
It might just not work out
You'll find a way somehow
