

## Higher

K.A.A.N.

As we float alone  
On this odyssey  
As the clouds gon' form  
It might get hard to see  
We get so higher (float up)  
We get so higher (float up)  
We get so higher (float up)  
We get so higher (float up)

Yeah, still on a quest, we searching  
I put my best foot forward knowing I gotta scratch the surface  
The odds against us, all projections are they closed the curtains  
Niggas ain't been counted out just yet, we fighting with a purpose  
If I threw the towel in, nigga that would be a self disservice  
Never let these random standards decide what my fuckin' worth is  
Long as I got air in my lungs nigga, I'm fuckin' workin'  
Can't get distracted, taken off my path and led astray  
Even if they don't give us one, my nigga we gon' find a way  
Gotta manifest the destiny that we was meant to see  
Even when they don't I still believe in me

As we float alone  
On this odyssey  
As the clouds gon' form  
It might get hard to see  
We get so higher (float up)  
We get so higher (float up)  
We get so higher (float up)  
We get so higher (float up)
