Floating on a high
I've been on a win streak
Flying in the sky
I wonder if they'll miss me
Time running out
No one came to get me
Tryna stay alive
Hope they don't forget me
I've been running head first straight into the wall
Fighting with my eyes closed 'til the day I'm gone
Dealing with my demons we been dancing in the night
Battle with the devil in the pale moonlight oh

Terrified I've been losing love
Tell me how you get to where you've gone
I need navigation for the backroad
Losing track of time where'd it all go
Going up and down on the ride again
Think I want to try to fly again
[?] with the light ahead
But first I gotta get out of bed

Floating on a high
I've been on a win streak
Flying in the sky
I wonder if they'll miss me
Time running out
No one came to get me
Tryna stay alive
Hope they don't forget me
I've been running head first straight into the wall
Fighting with my eyes closed 'til the day I'm gone
Dealing with my demons we been dancing in the night
Battle with the devil in the pale moonlight oh

I internalize what I've been through
Been down been out but I made do
I internalize what I've been through
Been down been out but I made do

Been a long time coming had to clean out my spirit
I've been calling out to God when the devil is near me
Checking if the mic on gotta make sure you hear me
Forever tatted into my soul I got to make sure they feel me

Floating on a high
I've been on a win streak
Flying in the sky
I wonder if they'll miss me
Time running out
No one came to get me
Tryna stay alive
Hope they don't forget me
I've been running head first straight into the wall
Fighting with my eyes closed 'til the day I'm gone
Dealing with my demons we been dancing in the night
Battle with the devil in the pale moonlight oh
