

Insane

K.A.A.N.

I talk to the voices in my head a lot
Hallucinated for an hour from the meds I got
My bitch says I'm fucking trippin' but I think I'm not
So paranoid, schizophrenic, with a hell of a plot
I feel insane (Yeah)
Most of the time
I feel insane (Yeah)
Most of the time
I feel insane (Yeah)
Most of the time
As you can see I have lost my mind

You find me howling at the moon like a wolf in the night
I took a fistful of shrooms now I'm seeing the light
It's bloody murder, bloody murder when I'm taking a life
I put some cocaine on my weed then I inhale from the pipe (ooh)
This shit did it like Mike I might just fucking collapse
Wake up in the emergency room, Where the fuck am I at?
Nurses asking a lot of questions, I'm like bitch fuck that
I need pills and morphine, some methamphetamines

I talk to the voices in my head a lot
Hallucinated for an hour from the meds I got
My bitch says I'm fucking trippin' but I think I'm not
So paranoid, schizophrenic, with a hell of a plot
I feel insane (Yeah)
Most of the time
I feel insane (Yeah)
Most of the time
I feel insane (Yeah)
Most of the time
As you can see I have lost my mind

Sometimes I drive drunk with both eyes close in construction zones
The destructive nature of my chromosomes that feel like home
I like to burn shit like bodies and buildings
Women and children end up on the nightly news
While you snooze I'm making a killing literally seriously
I'm a sadistic human being, vision I see viciously
I am amused by many things all of it's dark as mirror night
That's when I like to take a stroll
My therapist said don't you think all of this death takes a toll
Well maybe but I don't think about it cause I'm crazy
My momma smoke while I was in her womb (crack baby)
I've never seen side effects I just ain't got none yet
But then again that might explain why I do this shit

I talk to the voices in my head a lot
Hallucinated for an hour from the meds I got
My bitch says I'm fucking trippin' but I think I'm not
So paranoid, schizophrenic, with a hell of a plot
I feel insane (Yeah)
Most of the time
I feel insane (Yeah)
Most of the time
I feel insane (Yeah)
Most of the time

As you can see I have lost my mind
