

Level

K.A.A.N.

Knowledge, Nigga
Uh-huh
Lawd
Uh-huh
Yes lawd!

I put my foot on the pedal, pedal
Took it up another level, level
I don't think that they was ready, ready
I don't think they'll ever get it, get it
I put my foot on the pedal, pedal
Took it up another level, level
I don't think that they was ready, ready
I don't think they'll ever get it, get it

ED at me when I said it, said it
See what I mean, come and get it, get it
I wanna go, they won't let me, let me
We goin' in, no exception, exception
Press gotta get it white, yes, yes
Praise to the most hot, bless, bless
Can I get it one top, yes, yes
Smoke it to the face I'm stressed, stress
Relax and sit back, the master relieved
The past we don't speak
So no I don't preach
Appose to most [?]
I play my Mos Def
And I see bae
I won't want deep shit
The depth's atlantic
The site and sounds are an extravaganza
When I pan the room I can feel the groove
The panoramic view I'm getting closer to
YES LAWD!

I put my foot on the pedal, pedal
Took it up another level, level
I don't think that they was ready, ready
I don't think they'll ever get it, get it
I put my foot on the pedal, pedal
Took it up another level, level
I don't think that they was ready, ready
I don't think they'll ever get it, get it

The love I'm speaking of is here for you
Not new, be true to stand the test of time
I can prove the way actions do but don't complain
I'm a stone, refuse to build and never used
The cornerstone, the rising light of a pheonix
The time is perfect, yes I can achieve it
The stars align, I shine through all the darkness
I illuminate what I will provide
With the highest high, the way space be high
When I find the time we can maximise
And make the most of this, we gotta strategise
The potential's lost, but that's hin oder

A lack of effort can derail your actions
Avid thinker and contemplator
Can I kick it with' ya for a couple of minutes
I drop game and all that, converse about it
YES LAWD

I put my foot on the pedal, pedal
Took it up another level, level
I don't think that they was ready, ready
I don't think they'll ever get it, get it
I put my foot on the pedal, pedal
Took it up another level, level
I don't think that they was ready, ready
I don't think they'll ever get it, get it
