

# Like That

K.A.A.N.

It's a time and a place for this  
Clearly nigga I'm made for this  
My cuts are deep, my main objective is that I make a shift  
Oversee my operation I stay on top of shit  
The king of this metropolis  
Call plays like Gregg Popovich

I might drop a bomb on the populace  
Alter this reality, the view is  
As I observe the current trend tends to sound monotonous  
Redundancy within a sense  
But that's stating the obvious  
Send your compliments to the chef  
I've been cooking up [?]  
Ain't got GMOs in the flow this is potency at its best  
All of these additives I add 'em in for flavor to feel  
The recipe [?] we got major appeal  
What could I say?  
You could be winning or you could be losing but giving your all  
That's the play  
Never defining yourself by the moment you living in now  
'Cause any day  
It'll get better whenever your situation rearranges  
Knowing that progress is pain  
Just gotta remain strong and you'll make it

Back to the start of this shit we in the Genesis  
High 'til the day that I die you feel the energy  
Live sky divine melanin  
Feeling like a nigga of God I'll live forever with  
Rhymes to kill, rhymes to kill  
It's like that  
Rhymes to kill, rhymes to kill  
It's like that  
Rhymes to kill, rhymes to kill  
It's like that  
Moral of the story is to be like that

You can't replace me  
You can't replace me  
I've been living at the bottom [?]  
Gotta go and get this shit by any means, you know the theme  
You can't erase me  
You can't erase me  
Not looking for a handout  
There's a million ways that I can stand out I know that [?]  
I'm shooting my shot too quick  
That's man down  
Put them all down in the blink of an eye for survival  
Divide with the power  
To conquer the mind in a matter of hours  
The man with a plan  
And a plan to devour  
To take what I need  
And I watch you hide

I put what I feel inside the rhyme

I cut a lot of records  
I make a lot of racket  
I might be going insane, full metal jacket  
See when you got it it's nothing, you gotta let 'em have it  
Static with the connection like parallel magnets

Back to the start of this shit we in the Genesis  
High 'til the day that I die you feel the energy  
Live divine melanin  
Feeling like a nigga of God I'll live forever with  
Rhymes to kill, rhymes to kill  
It's like that  
Rhymes to kill, rhymes to kill  
It's like that  
Rhymes to kill, rhymes to kill  
It's like that  
Moral of the story is to be like that
