

Lotto

K.A.A.N.

Excited
Feelin like a nigga hit the lotto
Threw a party tell 'em you invited
Roll another blunt I tell 'em I ain't gettin' high
I'm gettin' enlightened
Floatin' in the sky elevated on a cloud won't come down
I've been movin' fast pay attention to the signs
Don't slow down
Feel like I'm runnin' out of gas
Breakin' down so close to the breakthrough
Feelin' like I'm on my last
Out of time
Out of patience
Tryin' to make due
Cannot find which way to go
Feelin' lost like I'm out the loop
Feelin' like they left me on my own
Don't know how the hell to make it through

Stand back
I've been up bout 3 stacks
Find it hard to relax
Not the same I'm revamped
I'm brand new you re-wrapped
I go hard you collapse
I put mines on my back
Knock out the park like Koufax
I'ma run this race at my pace
I'ma put a little gas in my tank
I'ma keep my head high 'til my days done
Never stagnant in place
No I can't stay down I'ma rise up
'Til my name resonates
Gotta push myself forward
Can't go back
Can't meet that fate

Throw some money in my casket
The other side livin' lavish
The grass greener ain't it Rabbit
Held the blunt I didn't pass it
Put them numbers up like Kobe
Bet your bottom dollar on me
Me and mines like the Army
And the Navy
You mufukas crazy
