Lawd  
Knowledge, nigga

Tell me what you know 'bout it  
Tell me what you really know 'bout it  
Pussy nigga you's a nobody

Why you talking shit as tho you fuckin' with the, kid  
You ain't even done half of the shit a nigga, did

Why you talking shit as tho you fuckin' with the, kid  
You ain't even done half of the shit a nigga, did

What you know 'bout it  
Tell me what you really know 'bout it  
Pussy nigga you's a nobody  
Tell me what you know 'bout it  
Tell me what you really know 'bout it  
Pussy nigga you's a nobody

Stay the fuck up out my face I'm never asking for suggestions  
The clean cut lines make it decent for digestion  
My words slice deep like a caesarean section  
I'm off to the next metaphor I let it manifest  
My mind is in a more positive state, no mediocrity  
I massacre, murder, I mutilate but do it modestly  
Apologies to anyone offended by my honesty  
I'm feeling like this motherfucker like I key the Odyssey  
My style is more Odysseus dancing for degradation  
Ignoring the regulations to get to my destination  
But never with hesitation I'm taking this trip alone  
Turning off my telephone, I need a second to think  
Monetize I keep it real and not trust for a single thing  
Everything is all love, you can have it for the free  
There's a monetary fee, that's the time that you spend  
Bitch I gotta get it on much I don't ever fucking end  
24/7 my shift nigga, I don't give a shit  
Make a quick lane switch, rolling like I'm in a Nascar  
Who the hell is you nigga, how you bring opinions  
Would you pass 'em to the next, I don't ever wanna hear it  
And I've been in control I pay attention while I'm steering  
In it for the long haul, you niggas did it for the image  
Independent with the vision and focused in on the mission  
With no intentions of ever becoming dependent on ya
