

# Overwhelmed

K.A.A.N.

Ooooh

Ooooh

Ooooh

Waves keep crashing down

Waves keep crashing down

Overwhelmed, in over my head, I feel

Overwhelmed, in over my head

In the state of mind where life a blur, I feel alone it's cold  
outside

I can't live a lie, oh how I tried I can't explain the way I feel

All that pain, it leaves a scar, trying to find out who we are

All that pain, it leaves a scar, trying to find out who we are

Waves keep crashing down

Waves keep crashing down

Overwhelmed, in over my head, I feel

Overwhelmed, in over my head

Ooooh

Ooooh
