

Pack

K.A.A.N.

In the trap, I put away my cameras
With the killers, dealers, swipers and the scammers
Never got the bag up in my comfort zone
I don't get played, I just play along
It's so many layers to this, that I can't forgive and forget, when I reminisce
Off of that liquor, fell deeply in love, but the love fucked me over so steady red cup
Met a plug, he flew me out to Texas
Steady snorting coke and poppin' Perc depressants
But we all just trying to soften up the edges
When you worth a couple mill' that's not excessive
Neighbors think I'm trappin' out the Lexus
Fucking up a cheque and fucking up my checklist
So be careful who you gotta get in bed with
'Cause the snake was hissing, then he got arrested
I wasn't around, and neither was you
Loyalty got me out here like a fool
I lost everything, you was out on the move
Not everyone gon' have the same heart as you
But you can't have hope without the pain
The blue faces smelling like cocaine
And politics and war, they both the same
You can't see what I see without a crane

Hit em with the pack I say, lawd
Hit em with the pack I say, lawd (pack, pack)

Got a [...] right here, and it's righteous
I got 'em coming back quick as I write this, lightwork
Let me high step, then I elevate, I never hesitate
I take my time with it, I blow your mind with it
I'm out of this world, let it unfurl
Now it's confirmed, pray it all works
First and foremost, a fuck I will never give
Led with malevolence, the rhymes that I'm peddling
Why you sleeping on me like a super bunch of sedatives
Why am I surrounded by these pessimists, peons
Never been the type of motherfucker you could lean on
Niggas get they fiend and they greed on, yeah
So now I grieve them, breathe in, breathe out
I, never told lies, I tell the whole truth
They tell a tall tale, agree to disagree
I disregard [...] I got it down pat
I make 'em fall back, I got a tight plan
Rhymes hand over fist for a lump sum
Kick dope flows that they can't keep up with
I praise on the week then beseech on a Sunday
I, took a one way trip can't go back
I hit em with the give and go, and tell 'em hold that
All in, never half-ass
Niggas been [...] but I'm rolling on E, lawd

Hit em with the pack I say, lawd
Hit em with the pack I say, lawd (pack, pack)
