K.A.A.N.

Eh, yeah yeah  
Lawd  
Aha  
Eh  
Knowledge, nigga  
Eh  
Lawd  
Ah, ah  
K-Def good look on the beat I appreciate it  
I'm feeling great about myself  
And don't the sky look blue?  
And don't the grass seem greener than it normally do?  
I got nothing but love for you baby  
I got nothing but love for you honey  
Lawd!

Pick up my difficult flow  
The pick and the roll  
The way that I give and I go  
A literal Tyrant  
That's taking the time to explain  
The way that I studied the game  
Perfecting the craft  
Presented you more  
I make it a point to define that I'm finding  
That people in love with the fake  
I said that I move at a sickening pace  
The picture I paint  
Is filled with the feeling and sentiment  
Sending you positive affirmations  
Giving you lyrical affidavits  
Niggas are making exaggerations  
Never created facade  
I pray to the gods  
Thank you for giving me life  
A talented flow I'm invested  
And I understand I have to stay focused  
I know what I know it's the  
The notion I'm making you sick and  
I'm quicker to get with a flick of a wrist  
When I pick up a pen  
The prophecies spilling  
I gotta get better  
To sharpen my skills  
It is a hunger that's fit for the harder  
I'm peeling, not peeling the cap  
I'm taking it back  
And I'm feeling very apart  
The people not really accepting these thoughts  
They lie on the records, I'm giving the truth  
The fact of the matter is I am aloof  
But what can I do?  
Continue to work at a rate  
That nobody has actually seen  
So I'm never leaving the house  
Except when I gotta record  
The minimal force

That most of these niggas have shown  
They plagiarizing like attack of the clones  
The reason I'm going as hard as I do  
I'm fluent in different ethics  
But work is the one that is truly effective  
Investing my time, investing my mind  
I feel like it's worth it  
I favor my isolation  
Saving a place with nobody's opinion  
I pray and I hope that it works  
My spirit it hurts  
My soul has been going berserk  
I cannot take all the ignorance  
Stripping the youth of their innocence  
Witnessing children we see as the future  
They throwing their lives away  
The party and bullshit  
Bipartisan pulpit  
You're one of the cool kids  
But acting a fool yeah? Ha  
Look inside yourself  
Or search your soul  
To find a purpose

I'm feeling great about myself  
And don't the sky look blue?  
And don't the grass seem greener than it normally do?  
I got nothing but love for you baby  
I got nothing but love for you honey  
I'm feeling great about myself  
And don't the sky look blue?  
And don't the grass seem greener than it normally do?  
I got nothing but love for you baby  
I got nothing but love for you honey

Now can I can kick it?  
Nigga yes you can!  
But can I kick it?  
Nigga yes you can!  
I float away inside my mind  
I'm feeling high  
I float away inside my mind  
I'm feeling fine  
Now can I can kick it?  
Nigga yes you can!  
But can I kick it?  
Nigga yes you can!  
I float away inside my mind  
I'm feeling high  
I float away, I float away  
I float away, I float away  
Lawwwwwd!

Taking it back to a time  
Oh when integrity was a priority  
Purposely putting your life on the line of the page  
And the lyrics you wrote with a pen and that  
Everything you would say on a record  
Was actual fact  
You made a relatable track  
But that will not get you paid  
They don't want your pain  
They want you to be like the rest of these lames

That love to conform by sickening form  
They praising [?] people adorn  
And I'm feeling torn  
I know I can switch it  
And give you the negative  
Dumbing it down and  
Remake it repetitive  
The lesson I learned  
Is stay to yourself  
Believing in rhetoric  
That never helps  
Just do what you love  
And try to focus on your passion  
Thinking of your life and  
The things that you want to accomplish  
Sacrificing is a steady and constant  
I know it's hard when  
You're lacking your confidence  
Constantly haunted by all the  
Mistakes that you made in the past  
You gotta progress and let go of stress  
Finding the beauty in difficult times  
Relieving the pressure you work on your mind  
Reliving the moments that  
Made you the person you are  
I swear that it will get you far  
But never depend on the  
People you feel like you need  
Don't ever think you need a friend  
I used to think I was strange  
Or maybe insane  
But I wouldn't have it any other way  
Keep it a 100  
I give you the gospel  
And you coulda seen that  
My shit was the truth  
Lawwwwwd!

Knowledge!  
K-Def I appreciate the beat  
God bless!  
Faiz is on the boards too

"I like your style!  
Come on, Let's how good you really are!"
