

## Positive

K.A.A.N.

All that I want is  
A pair of wings to fly (Yes lord)  
Into the blue of  
The wide open sky (Knowledge nigga)  
Show me your scars  
I'll show you mine  
Perched out of the city  
On a pair of power lines

Take a deep breath and don't over think it  
Take a deep breath and stay positive

Take a deep breath and don't over think it  
Take a deep breath and stay positive

Take a deep breath and don't over think it  
Tread light I won't make a wave, I wanna stay away from them bright lights  
And on the track that's to refined life, long as the rhyme tight, that's all  
I care about, but I was never concerned with your deceitful lies  
My eyes on the prize, all three of them  
I gotta keep them open like it's CBS  
I'm serving legal dope to people CVS  
Oh I've been up for days, I'm trying to push the product, sipping cups of coffee, caffeinated rhymes  
Ain't no folders in it, I got soldiers with me  
Me, myself, and I, no we will not comply  
I heard the world's a stage and we the many players  
Only fate can save us what do you believe?

Take a deep breath and don't over think it  
Take a deep breath and stay positive  
It's not as ominous as some might claim  
The right mind frame, your whole life could change  
My head held high in all situations  
With a destitution or a found solution

Take a deep breath and don't over think it  
Take a deep breath and stay positive  
It's not as ominous as some might claim  
The right mind frame, your whole life could change  
My head held high in all situations  
With a destitution or a found solution

Moved onto a nuance, but no agenda  
No procrastination, I am planting seeds  
The fruit to my labor blossomed into many, manifest my destiny until fruition  
A well rounded rhyme is like a parallelogram, let me do the math like it's a rithmetic  
A renaissance for due, like it's a past era  
Young Brunelleschi, I'm an architect  
A true trendsetter, lyrical vendetta  
Let me adjust the content into a proper form, cause I could reproduce a three dimensional object in two dimensions  
I invent perspective  
Create the world that I reside in, within the sanctity of my asylum  
The outside noise is brought to a whisper, I can't hear it so it don't affect

t me
