

Show'd Up

K.A.A.N.

Yeah this shit look easy
If you watchin' from the sidelines ah
Spotlight, you can see me
They gon' put us in the game oh lawd
Had to fix my optics
You get the ball little nigga, don't drop it
You got a shot little nigga, just pop it
Do your thing, nigga let 'em keep watching, watching, watching

I showed up, show up, show up
Had too much on my mind don't waste my time and
Hold up, hold up, hold up
That pressure I can feel it but I never
Fold up, fold up, fold up
That clock gon' keep on tickin', I'm about to
Go up, go up, go up
I maintain and show up, I show up, I show up
Have too much on the line to waste my time and
Hold up, hold up, hold up
That pressure I can feel it but I never
Fold up, fold up, fold up
That clock gon' keep on tickin', I'm about to
Go up, go up, go up
I maintain and show up, I show up

365/7 in a week, can't starve little nigga gotta eat
Go hard, turn a meal to a feast
Turn a cool young nigga to a beast
I was plottin' on Ibiza for leisures
Vacationing with Felicias and Tishas
Tryna make a 100 mill' on the features
Ay tell 'em turn this shit loud through the speakers
I promise to pledge my allegiance
You see the way we flow through the deep end
My ship has been sailing while you're sinking
Catastrophic when the wave start peaking
They rising and wash away your region
Catatonic with the vibes, I'm speakin'
The snake in the grass and I see it
Energies I read 'em, motherfuckers bloodsuckin', they leeches
Make 'em get back, back, I'ma need a fat stack
Weed in a knapsack, where the fuck the match at?
Feeling like Mad Max, gone off a bad batch
Riding in a hatchback, tell me where the cash at
Think I get too high, pussy nigga you lie
Shit is like a woosah, hit it, get ghost
Niggas can't play both sides, better pick one
Now ride till you die, 'fore I fly and you float, go

I showed up, show up, show up
Had too much on the line don't waste my time and
Hold up, hold up, hold up
That pressure I can feel it but I never
Fold up, fold up, fold up
That clock gon' keep on tickin', I'm about to
Go up, go up, go up
I maintain and show up, I show up, I show up

Have too much on the line to waste my time and
Hold up, hold up, hold up
That pressure I can feel it but I never
Fold up, fold up, fold up
That clock gon' keep on tickin', I'm about to
Go up, go up, go up
I maintain and show up, I show up
