

# Sightseer

K.A.A.N.

You might get tired 'cause you running a lot  
But like a big shot took you all out of love  
For what you got if you don't got enough  
And now you lost 'cause you've been out of touch  
You just a sightseer  
Down with the leeches and the bottom feeders  
Can't find your purpose now you need a reason  
You all alone I know it can't be easy  
So now you wander like a sightseer  
Down with the leeches and the bottom feeders  
Can't find your purpose now you need a reason  
You all alone I know it can't be easy  
So now you wander like a

Hopeless soul  
Can't find your way back home  
You out here on your own  
Been gone way too long  
Feel like it's set in stone  
Ain't got no room to grow  
You feeling stagnant now  
And like your time ran out

Ran out of patience  
[?] soul turning vacant  
Out of control, no, leave me alone  
Ain't no replacement  
Who let blood out on the pavement  
That's a demonstration  
Reconciliation

You need a pill, you need a shot for where the pain is  
Doing your best get through the worst I know it's draining  
Keep your head up to the clouds  
Never let 'em see you down  
You will find a way out one day

You might get tired 'cause you running a lot  
But like a big shot took you all out of love  
For what you got if you don't got enough  
And now you lost 'cause you've been out of touch  
You just a sightseer  
Down with the leeches and the bottom feeders  
Can't find your purpose now you need a reason  
You all alone I know it can't be easy  
So now you wander like a sightseer  
Down with the leeches and the bottom feeders  
Can't find your purpose now you need a reason  
You all alone I know it can't be easy  
So now you wander like a
