

Stay High

K.A.A.N.

Never fold, I never fold no, no no no
I been ready, tryna go, no no no
Can't you tell me where they are, no no no
Push the limit, try to make it happen
I ignore distractions and the mist of madness
I stay high to get rid of the lows, so I rarely see 'em
I been movin' around with a lot of patience
Ain't a man that could do this the way I do it
Knowin' I don't like it, said when I keep growin'
And I was only inspired by my influence
Wrote a flow so they all feel the sentiment
I'm makin' sure that it's evident
Ground up, like the sediment
They proud of my environment
Burn marijuana with a lighter and
My Gs started exitin', excellent
No way you could F with it
We make it look effortless
They all gon' remember this
Hold up, I got smoke in my lungs
Roll up, nigga, that's just because
So lost that I never feel much
In tune while they all out of touch
What, who am I to judge who disagree
I take my time when I do this
Back and forth from state to stadium
Nigga, only spittin' that true shit
The real prevail, the fake will fall
So what I provide to y'all is that true step

I won't listen to you lies, lies
I stay steady gettin' by, by
And we gon' stay high
And we gon' stay high
And we gon' stay high
And we gon' stay high
I won't listen to you lies, lies
I stay steady gettin' by, by
And we gon' stay high
And we gon' stay high
And we gon' stay high
And we gon' stay high

Show me love when I open up
Feel the buzz, hope I don't get stung
Better love when I'm low enough
Feelin' stuck I'm the only one
No discussion, go get some
Got a budget, low on funds
Gonna stop, no it can't be done
Take a shot like a loaded gun
Call a doctor, you can't run
Better off just stayin' put
Better options, can't name one
Better profit, might make none
Call the Prophet Muhammad
It's a lot, all they do is judge

I know God but you don't know us
I pray hard that I don't go nuts
I got heart but I don't know much
Blame it all on older stuff
Damn, my logic's holdin' up
I get nauseous holdin' grudges
I adopted more than one
Imma pop like corks with bubbly
Fix your posture, carry more today
Ain't no losses, open yours today
Now I got to thank the Lord to pray
For you, your crew and yours today
We don't need no news about war today
Hope that [?], when I reach high up
Like me, 'til you see what's under me
There's life inside what's on your mind
That's right behind, stop struggling
Imma light one up, no more to say

I won't listen to you lies, lies
I stay steady gettin' by, by
And we gon' stay high
And we gon' stay high
And we gon' stay high
And we gon' stay high
I won't listen to you lies, lies
I stay steady gettin' by, by
And we gon' stay high
And we gon' stay high
And we gon' stay high
And we gon' stay high
