K.A.A.N.

I remember when they wasn't fucking with me baby
I remember when them niggas told me I was crazy
I remember when I had to make it happen daily
Rolling up then medicate, a nigga feel sedated
I remember getting all the gold for ya
I remember niggas wasn't rocking with me yeah
I remember plotting on the low for this shit
I remember sleeping on the floor for this shit
I had to wrap it up (Up, up)
I got shit to do
I had to wrap it up (Up, up)
Tryna bust a move
I had to wrap it up (Up, up)
Ain't got shit to lose
I had to wrap it up (Up, up)
Who the fuck is you?

I was tapped in to it for the whole time
Bitch I'm sitting high up on the skyline
I just tiptoe around the top, I'm gonna fall off
[?] and the alpine
You could see a nigga is a one of one
A diamond, nothing like the other ones
Ain't no way around it, I'ma level up
I got it, know a nigga get it done
These days I been living my life
Odyssey shit that you niggas can't imagine yet
Creatively I'm in a different league
Couldn't survive in these waters, they're deep
I want the problems, I want the dollars
I want the models, I want the bottles
I want the whole pie, the whole enchilada
I just want it all, never limitate, time to elevate
Looking at my plate, I just wanna eat
How good the table if there ain't a seat
I'll never starve, I conjure a feast
[?] defeat, I'm back on my feet

I remember when they wasn't fucking with me baby
I remember when them niggas told me I was crazy
I remember when I had to make it happen daily
Rolling up then medicate, a nigga feel sedated
I remember getting all the gold for ya
I remember niggas wasn't rocking with me yeah
I remember plotting on the low for this shit
I remember sleeping on the floor for this shit
I had to wrap it up (Up, up)
I got shit to do
I had to wrap it up (Up, up)
Tryna bust a move
I had to wrap it up (Up, up)
Ain't got shit to lose
I had to wrap it up (Up, up)
Who the fuck is you?
